

ICE-Star-Hook ISH 8

Artikel-Nr: 7995254

ICE-Star-Hook ISH - suitable down to -60°C. Due to its innovative construction, the skeletal design ICE-SH Star Hook is up to 25 % lighter than Grade 8 hooks of the same WLL, i.e. the next larger size. The large width of the throat of the hook is the same dimensionally as the million fold successful Granit-Super Hook - of the next larger size - so not everything was reduced. The safety latch of the RUD-Hook family, the GSH, SH, Cobra and ICE-Star Hook are interchangeable. (Make sure to select the correct diameter) - easy to supply spare parts. Surface: ICE-Pink powder coated All the benefits of the VIP-Cobra-Hook are included and improved:

- Edge protection - increased section at the side and top of the hook for the safety latch
- Wear ribs - which protects the first chain link
- Thickened tip of the hook - prevents incorrect and dangerous use of the hook tip
- Forged, tempered and ergonomic safety latch with a triple-coiled, double-leg spring in stainless steel. Exceeds by far, the EN standards values for side loading.
- Marker points to check the width of the hook on inspection - (often copied)
- Patented wear marks that, without measuring, show instantly when the hook has reached the statutory allowable wear limit and must be replaced
