

RUD TECDOS TSB

OPENING AND CLOSING MOLDS WEIGHING UP TO 2.5 TONS.

Safety in tool maintenance

- Safe and ergonomic handling of the moulds
- No dangers for the operator
- Protection of the infrastructure

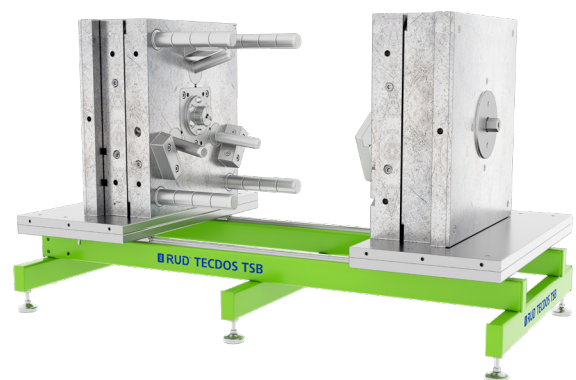

Simple operation

- Manually guided and controlled opening of moulds
- No electrical or hydraulic auxiliary power required
- Rotation of the mould halves around the vertical axis for easy machining and maintenance

Easy handling

- Low support surface
- Movement of the TSB with forklift or pallet truck
- No further gripping tools necessary

Type	Support plates each in mm	Total size in mm	Table top height in mm	Load-bearing capacity up to - in kg	Weight approx. in kg
